**Reasons for Allowance**

---

- Claims 1-16 allowed over the arguments by the applicants and the absence of prior art that teaches or fairly suggestive of the alkali-developable photocurable composition, specifically possessing no ethylenically unsaturated double bond in the alkali-soluble binder meeting the limitations of the instant claims by the applicants.

The examiner construes the legends within the parenthesis of the claims to be definite in identifying specific components of the composition with certainty and without ambiguity.
